## Working with Fractions

1. Use the Fraction Lab to find three more fractions that are equivalent to  $\frac{1}{2}$ .

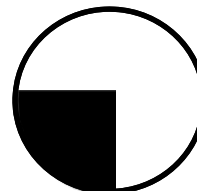

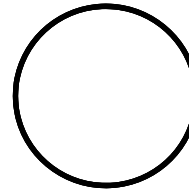

Sketch your findings below.

$\frac{1}{2}$	—	—	—
			

2. Use the Fraction Lab to find one more fraction that is the same as  $\frac{1}{3}$ . Sketch your findings below.

$\frac{1}{3}$	—
	

3. Use the Fraction Lab to find one more fraction that is the same as  $\frac{1}{4}$ . Sketch your findings below.

$\frac{1}{4}$	—
	

Name \_\_\_\_\_

## Working with Fractions

Use Fraction Lab to find fractions you can use to complete the comparisons.

Name \_\_\_\_\_

## Working with Fractions

Use Fraction Lab find fractions to complete the equations.
